

America is stirred by the first major kidnaping case in more than a decade — the tragic murder of 6-year-old Bobby Greenlease for whose safe return his despairing parents had given up \$500,000.

Two of the three principals connected with the kidnaping and murder were taken by police, who found half the ransom money and the murder gun in their possession; and as I write this a nation-wide hunt is under way for the third.

They can expect justice as swift and unmerciful as their own hands. It is the ugliest of crimes. It is recorded in the history of our own Western frontier that a town was considered to be civilized only when a woman was able to walk down the street unmolested — out even among the most violent and lawless people the person of a child was instinctively protected.

Kidnaping offends the oldest and most powerful instinct of humanity and therefore the occasional case which has darkened the American landscape invariably eclipsed all other news of the day. We take this tragic news to heart because kidnaping for gain is a crime almost unknown in modern times except here in our own United States.

And each case reveals some serious defect in the machinery by which law and order are supposed to be maintained.

One glaring fact stood out in the mass of background information furnished by our wire services on this page yesterday: All three of the accused persons have long criminal records. The two men have been in and out of prison practically their entire adult lives. The record is consistently one of arrest by the police, conviction, sentence to imprisonment — and then premature release by parole or otherwise.

It is a record of too-lenient treatment of confirmed criminals, and the pay-off is a deliberately-plotted and cold-blooded murder for money.

One more fact jumps up at you from the record — and this is truly heart-breaking. With all the ordinary troubles that folks have in running a school it now appears they must be on 24-hour guard against kidnapers. In the Greenlease case the child was released to a stranger on an oral representation. But it was the kind of representation that almost demanded that the child's mother was critically ill.

Nevertheless a demand for proof would have stopped the kidnaping before it happened. This is not a nice thing to say, but it has to be said — in behalf of all the schools and all the children placed in them for security as well as education. The Kansas City kidnaping was carefully plotted over a period of two years, and with that kind of criminals arrayed against them the schools of our country are going to be forced to require positive identification before releasing any child, no matter how great an emergency is stated.

Many Farmers Abandon Aid Requests

According to H. B. Gilbert, Chairman of the Hempstead County PMA Committee, many farmers holding prior approvals for assistance under the Agricultural Conservation program have not followed through on their requests.

Mr. Gilbert said that purchase orders for limestone, superphosphate, potash, hairy vetch, Single-corn peas, Austrian winter peas, Crimson clover, Tall fescue, White Dutch clover and Ladino clover can be obtained at the PMA office. He further stated that November 1 is the final date for planting these seeds and suggested that all interested farmers in the county meet at the PMA office in the Court House for the orders or additional information. "The out of pocket cost in some instances are small," he said.

The chairman further stated that assistance is available to the farmers for building stock ponds, terraces and drainage ditches. Mr. Gilbert pointed out that never before has the need for stock ponds been so evident as reflected by the drought during the last two years. "Had it not been for the many good stock ponds built during the last decade, the livestock industry could not have thrived in Hempstead County as it has for the last few years," he said.

The chairman further pointed out that only three months remain this year for completion of conservation practices and suggested that all interested producers contact the county office at the very earliest convenience.

MOTORIST KILLED
BLYTHEVILLE, Mo. — Walter B. Taylor, 28, of Blytheville was killed early today when his automobile smashed into a tree on "dead man's curve" on Highway 40 west of Osceola.

Osceola E. M. Holt said Taylor's car skidded 123 feet before hitting the big cottonwood tree.

Taylor was a linesman for the Arkansas-Missouri Power Company of Blytheville.

CONFESS — Bonnie Heady and Carl Hall, kidnaped 6-year-old Bobby Greenlease, Jr., nine days ago from an exclusive school in Kansas City, answer questions by FBI in Neustead police station in St. Louis. Bobby's body was found in a shallow grave at St. Joseph, Mo., 50 miles north of Kansas City. — NEA Telephoto

FOUND — The FBI announced Wednesday the body of Bobby Greenlease, Jr., 6, abducted nine days ago from an exclusive Kansas City school by a woman posing as his aunt, has been found in a shallow grave at St. Joseph, Mo., 50 miles north of Kansas City. Two persons, Bonnie Brown Heady and Carl Austin Hall, are under arrest in St. Louis. — NEA Telephoto.

IMPLICATED — Two kidnapers of Bobby Greenlease, Jr., have implicated Thomas John Marsh in kidnap and murder of the 6-year-old Kansas City boy. Marsh was released Oct. 2, 1951 from Missouri State prison on charges of molesting a minor child. — NEA Telephoto

Police Believe Youth Actually Killed by Hall

Search Spreads for Third Person in Kidnaping

By CHARLES NETHAWAY

KANSAS CITY, Mo., (UP) — A tattooed sex degenerate sought in the kidnap-slaying of little Bobby Greenlease was reported to have been seen in half a dozen states today, but police officials said they were "convinced" that they already have the murderer.

Detective Chief James Chapman of the St. Louis police said it was "the belief of the department" that Carl Austin Hall, 37-year-old ex-convict pumped three fatal shots into the six-year-old heir to millions before he demanded and got a record \$500,000 in ransom from the child's parents.

In his story of the kidnaping, Hall accused tattooed Thomas John Marsh, 37, of the slaying which he said took place at the St. Joseph, Mo., home of his confessed accomplice, Mrs. Bonnie Brown Heady, 31. Local and state police agencies said no official arrest order has been issued for Marsh, although authorities in the Midwest and East are conducting their own local searches for the stocky blue-eyed "mystery man."

From descriptions published in newspapers and pictures shown on TV newscasts, persons in Minnesota, Ankeny and Cedar Rapids, Ia., Peoria, Ill., Bass Lake, Ind., Detroit, Mich., and Syracuse, N.Y., and New York City reported that they had seen a man resembling Marsh. A warrant for his arrest, possibly charging violation of the Lindbergh kidnap law, was reported being prepared by federal officials here.

While Hall and Mrs. Heady were questioned in a St. Louis jail, authorities kept a plump prostitute, Sandra O'Day, 22, under wraps at the Jackson County jail here as material witness. Authorities said the O'Day woman, whom Hall accused of stealing about \$500,000 of the ransom money, would not be permitted to make her story public "until she gives it from the witness stand."

The slain child's parents, Robert and Bonnie Heady, are being interviewed by police.

New Hope-Daisy Road Work Is Assured

LITTLE ROCK (UP) — The State Highway Department issued a work order on one road job, programmed another, and granted a time extension on two other projects yesterday.

The work order was for widening of four bridges on the Hardy-Willford road, state Highway 63, in sharp curve. Contractor is Ferguson Brothers, Fort Smith. The bid was \$67,431.

State Highway Director Herbert Eldridge put on active status a 7.8 miles improvement project on Highway 70 between New Hope and Daisy in Pike County after County Judge Erith Dixon accepted a department offer to improve the road if the county furnished free right of way.

Eldridge said engineers would proceed with plans for eventual construction of the road.

Eldridge also granted a time extension to Paragould officials to enable them to acquire necessary rights of way on two road projects in Greene county.

The roads involved are Highway 25 between Paragould and Walnut Ridge and Highway 1 north from Paragould to the Missouri line.

Koreans to Turn to Christianity

CONWAY, Mo. — A native of war-torn Korea is convinced that Christianity is the only answer to the ills of the world.

Rok Hyung Kang, who has arrived here to study at Hendrix College, said his father was hanged by the Chinese Communists in 1950 because he was urging his countrymen to follow Christianity instead of Communism. Kang's father was a minister.

The 19-year-old Kang said he long had dreamed of coming to the United States to prepare for work in medicine, science or government. He plans "to follow in my father's steps," said Kang.

Neutrals Charge Allies Stalling Interview Period

By MILO FARNETI

SEOUL, Mo. — The Neutral Nations Repatriation Commission today accused the Allies of trying to stall away more of the dwindling 90-day period allotted for interviews with 23,000 war prisoners who refuse to return to their homelands.

The NNRC told the UNC pointedly that the Reds offered to take only four days to build up an explanation center which the Allies estimated would require a month.

Truce terms specify that the explanation period and Christmas Eve. The Allies have turned down repeated NNRC and Red requests for an extension.

Meanwhile, another Indian letter rejected the Allied charge that the Continued on Page Three

Prosecutor says Hands Tied in Dierks Case

ASHDOWN, Mo. — Prosecutor R. Ashdown says his hands are tied as far as investigating a \$170,000 shortage at the now-defunct Bank of Dierks is concerned.

Thomas said yesterday he has been able to get necessary records from the FBI and the U. S. attorney general's office.

Arkansas Atty. Gen. Tom Gentry told Thomas he had jurisdiction in the case.

Accused in the shortage are Mrs. Opal Simmoning, 50, former assistant cashier and 73-year-old former Vice President Thomas F. Westbrook.

U. S. Dist. Atty. Charles W. Alkinson has asked that the remaining indictments against the pair be dropped because he doubted whether federal offenses were involved. Westbrook and Mrs. Simmoning were indicted on 11 counts of making false entries, conspiracy to embezzle and embezzlement. Nine counts already have been dropped.

Search for Bank Robber Continues

HARRISBURG, Mo. — Police today pressed their search for a pistol waving white man who robbed the nearby Bank of Weiner of \$3,580 yesterday.

Poinsett County Sheriff J. Lee Wright said today that roadblocks throughout the area had turned up nothing and he had no leads.

The robber walked into the bank about 9 a.m. yesterday, attempted to cash a check at the cage of Miss Juanita Wofford, a teller.

When Miss Wofford refused to cash the check, the man went to a desk, printed a note and returned to Miss Wofford's cage.

The note demanded "all the money" and threatened harm if there was any outcry.

Bank President Ernest E. Hogue fixed the loss at \$5,580.

U. S., Britain Try to Solve Trieste Issue

By ROBERT E. JACKSON

ROME (UP) — The United States and Britain presented new proposals to Italy today for a temporary solution of her bitter seven-year-old dispute with Yugoslavia over Trieste.

The ambassadors of the two Western powers, Mrs. Clare Boothe Luce of the United States and Sir Victor Mallet of Britain, called on Premier Giuseppe Pella together this morning.

An American embassy spokesman announced following the 45-minute meeting:

"New proposals on Trieste were presented to Italy this morning. Both British and American officials refused to disclose whether the proposals actually had included an offer to hand over to Italy the administration of Zone A, now occupied by troops of the two Western powers."

However, diplomatic sources believed the offer called for eventual withdrawal of the 5,000 American and 5,000 British troops from the zone which they have occupied since to war. This would put Italy in charge and leave her on a more equal footing with Marshal Tito's government, which occupies Zone B.

Eight North American animals hibernate during the winter months: the jumping mouse, badger, bat, gopher, woodchuck, chipmunk, raccoon and bear.

Sentence Handed Down in Circuit Court Here

Hempstead Circuit Court continued in session here today with Judge Lyle Brown presiding. The following cases were heard yesterday:

Jesse James Stewart, charged with forgery and uttering, entered plea of guilty, sentenced to two years on one count and a year on the other, with sentences to run concurrently. The case resulted from a check which Stewart passed at Allen's Service Station last July.

In a civil case resulting from an auto accident on Highway 23, south a jury awarded Emmett Powell \$125 judgment against W. C. Wormack.

British Pour Troops Into Trouble Area

GEORGETOWN, British Guiana. — British troops landed today and mounted guard at government headquarters here and sugar estates outside the capital of this South American colony.

Small groups of persons watched the Royal Welsh Fusiliers disembark from the frigates Burghhead Bay and Bighury Gay, which sailed into Georgetown harbor before dawn.

The situation remained calm in the face of what leftist Prime Minister Cheddi Jagan called a "show of force." He is head of the majority People's Progressive Party (PP), which has been accused by the British of Communist intrigues against the colonial government.

The Royal Welsh Fusiliers came from the West Indies island of Jamaica aboard the 8,000-ton cruiser Superb and the two-ton frigates.

The troops marched off to Government House and to the guards estates, where labor troubles have occurred. The sugar crop is one Continued on Page Three

Estimate Shows 15.5 Million Bales of Cotton

SOME DRIVERS TO GET LOWER RATES

LITTLE ROCK (UP) — About 50 per cent of Arkansians who have automobile insurance will get lower rates on Oct. 20. But uninsured drivers under 25 will have to pay more.

State Insurance Commissioner Harvey Combs said two national rating bureaus will put a new rate plan into effect.

It is based on distances driven, use of the vehicle and the age and responsibility experience of the owner.

State Insurance Commissioner Harvey Combs said two national rating bureaus will put a new rate plan into effect.

It is based on distances driven, use of the vehicle and the age and responsibility experience of the owner.

Hall Talented in Spending, Not Earning

ST. LOUIS, Mo. (UP) — Carl Austin Hall had a talent for spending money but no talent for making it.

Court records in Missouri and Kansas showed today that the kidnaping of Bobby Greenlease squandered a \$200,000 inheritance from his father before he became a criminal to get more money.

His free-spending with the \$200,000 Greenlease ransom led to his downfall.

Authorities said Hall, the 37-year-old son of a prominent Kansas attorney, went through his inheritance in four years. He once told police that he sank a lot of the money in stock market speculation and in operating liquor stores. None of the deals panned out.

As a youth, Hall spent three years at Kemper Military Academy, Boonville, Mo., and knew the adopted son of wealthy auto dealer Robert Greenlease. He never forgot the name.

Later he joined the Marine Corps, but that venture ended in failure. He wound up being arrested in 1942 on charges of being WOL.

After the war Hall discovered that a gun could be used to get money. But he was not a successful holdup man, either. He once admitted that a series of eight robberies of cab drivers netted him only \$33.

He was first arrested for armed robbery at Kingman, Kan., in October, 1951. The charges were dismissed after his attorney argued that what Hall needed was a psychiatrist — not imprisonment.

Later in Kansas City a judge took the opposite view when Hall was arrested again for armed robbery. He sentenced him to five years in the Missouri penitentiary.

Behind bars Hall began planning the most elaborate money-making scheme of his career. He was still thinking about it when the prison gates swung open to release him on parole last April.

Ten days ago he put the plan into execution. The Greenlease kidnaping brought him the biggest amount of money he ever hoped to see — \$500,000.

But Hall still had his talent for spending money. His wild carousing in a St. Louis hotel aroused the suspicion of police and brought his downfall.

Stassen Slated to Be Labor Secretary

By LYLE C. WILSON

WASHINGTON (UP) — The decision was all but final at the White House today to make Harold E. Stassen secretary of labor.

There was no firm word on when the appointment would be announced. There could be some delay.

He would succeed President Martin P. Durkin of the AFL-Plumbers Union. Durkin left the cabinet complaining that President Eisenhower broke a promise in a dispute over amendment of the Taft-Hartley act.

Stassen was a candidate for Republican presidential nomination in 1944-45. He became the youngest governor in the United States by choice of Minnesota voters in 1930, resigning in his third term for wartime naval service. Stassen is 40.

His present job, as director of the Foreign Operations Administration which channels United States aid abroad, is nearing an end; FOA is tabbed to go out of business June 30, 1954. Enough top members of Congress have announced their determination to stop the flow of economic aid funds to enable the agency confidently to begin now to plan for its own funeral.

Like Chief Justice Earl Warren, a political debt owed by Mr. Eisenhower is among Stassen's substantial qualifications for a cabinet job. The 28-vote Minnesota delegation split 10 for Stassen and nine for Mr. Eisenhower on the first and decisive presidential ballot, July 11, 1952, at the Republican National Convention.

It was Minnesota's switch of Stassen's 10 votes that put the general over, and the switch was part of a deal made some hours earlier to the effect that Mr. Eisenhower would get the votes if Stassen's feeble campaign flickered out.

Stassen was useful to the party and the presidential ticket in the 1952 campaign as liaison with labor, notably the AFL.

"The President calls Stassen a 'team player,' and barring some obstacle not now in sight, Stassen will be in the cabinet some months before FOA folds."

27 Convicts Get Their Paroles

LITTLE ROCK (UP) — Twenty-seven Arkansas convicts were paroled yesterday.

Recommendations for commutation of sentence and remitting one fine also were made by the State Parole Board.

Parolees, county, date of sentence, crime and term included: Ed Dawson, Jefferson, Aug. 21, 1951, larceny, six years.

Tom English, Pope, Jan. 24, 1953, embezzlement, two years.

Robert Fisher, Jefferson, June 2, 1953, assault with intent to rob one year.

Henry Grantham, Garland, Jan. 26, 1949, carnal abuse, 10 years.

Harvey Helton, Pope, July 30, 1952, manslaughter, two years.

Frank James, Phillips, May 10, 1949, burglary and grand larceny, 10 years.

Calvin (Jack) Mitchell, Union, Jan. 28, 1953, grand larceny, two years.

James P. Williams, Jefferson, Sept. 4, 1953, burglary, three years.

Actor Nigel Bruce Dies in California

SANTA MONICA, Calif. (UP) — Nigel Bruce, 58, veteran actor of stage and screen who was best known for his portrayal of Dr. Watson in the Sherlock Holmes movie series, died today in St. John's Hospital.

He entered the hospital last Sunday night after a heart attack. Dr. Douglas Ford, his physician, said death was due to coronary thrombosis.

He played in many Sherlock Holmes movies, opposite Basil Rathbone.

His widow and two daughters survive.

All Around the Town

By The Star Staff

Hope's football team meets Hot Springs here Friday night at 8 o'clock and if local grid fans run true to form a small crowd will turn out about as usual. . . . folks here simply aren't backing their football team and never have backed one that wasn't all winning. . . . yet the Bobcats have lost only one game this season. . . . It's more than simply backing the senior team, it's the entire athletic program. . . . nowadays instead of supporting players, and Hope did for years, the school has a program which takes boys in grammar school and trains them right on through high school, a program that pays off in the long run. . . . the grade school teams, Junior, "B" team and Bobcat team, seven in all, have good equipment and training but if the program is to continue it must have support. . . . you see revenue from the senior squad games foots the bill for the entire athletic program and good financial support is a must if the plan is to continue. . . . otherwise the program may have to be abandoned. . . . Hope had only three

more home games, be a real fan and give the Bobcats your financial as well as moral support by attending.

Due to prolonged dry weather, the City Federation of Garden Clubs have postponed the flower show scheduled for October 22.

Sgt. Charles Murphy, whose wife, Dorinda and mother, Bertha Hucker, live on Hope Route One, recently joined the 1st Infantry in Germany. . . . he is a veteran of World War II and of the fighting in Korea, wears the combat infantryman's badge with Star, Purple Heart with Oak Leaf Cluster and Good Conduct Medal. . . . Aboard the Destroyer USS Blus, now in the Far East, is J. C. Rothwell, son of Mr. and Mrs. J. C. Rothwell of Hope. . . . James Donald Weaver of Fulton has been elected council representative of Razorback Hall, University of Arkansas men's hall, for this school year. . . . an engineering major, he graduated from Hope High School.

The hand is quicker than the eye, and there are plenty of black eyes to prove it.

NEW YORK COTTON

NEW YORK (U) — Cotton futures moved lower today, influenced by a higher than expected government cotton crop forecast. Losses by the cotton elevators ran around 75 cents a bale a day after the report, but the selling was not heavy and the market later improved slightly on trade buying and short covering.
Late afternoon prices were 25 to 30 cents a bale lower than the previous close. Oct. 32-34, Dec. 32-33 and March 32-33.

POULTRY AND PRODUCE

CHICAGO (U) — Live poultry: Steady. Receipts 1.10; eggs, f.o.b. paying prices unchanged; heavy eggs 21-25; light eggs 18-20-23; fryers or broilers 30-32; old roosters 20-25; ducklings 27.
Butter: Receipts 431,000; wholesale buying prices unchanged; 88 score AA 88-25; 92 A 60; 90 B 30-25-45-5; 90 C 62-75; eggs 60 B 64; 60 C 62-5.
Eggs: Farm receipts 4,340; wholesale buying prices unchanged; U. S. large 64; U. S. medium 1; U. S. standards 53-55; current receipts 45; dirties 42; chicks 40.

GRAIN AND PROVISIONS

CHICAGO (U) — An erratic market with numerous up and down swings, none of which got very far, featured dealings in grains on the Board of Trade today.
On the dips soybeans went down most. On the advance wheat went highest, stimulated by a little expansion in sales of spring wheat flour and continued dry weather in the Southwest. Corn was a little lower most of the day but oats, after an early dip, had a steady tone.
Wheat closed 1/2¢ lower to 1 cent higher. December \$1.91 1/2; corn 49 1/2¢ lower. December \$1.43 1/2-5¢, oats 15¢ lower to 1/4¢ higher. December 76 1/2-1/4, soy 1/4¢ lower to 1/4¢ higher. December \$1.19 1/2-3/4 and soybeans 1/4¢ lower, November \$2.02-1/2.
Cash wheat: none. Corn: (new) No. 2 yellow 1.40 1/4; No. 4 1.30; No. 6 1.35; sample grade 1.37 1/4-1/2 (old) No. 1 1.50; No. 2 1.50; No. 3 1.40-1/2-3/4; No. 4 1.40-1/2-3/4; No. 5 1.40-1/2-3/4; No. 6 1.40-1/2-3/4; No. 7 1.40-1/2-3/4; Neutrals Charge

Continued from Page One

commission was operating on the theory that most of the prisoners actually desire repatriation."

The Indian chairman of the five-man commission, Lt. Gen. K. S. Thangayya, said the commission cannot make such an assumption.

Thangayya also rejected a Communist charge that the captives have not been allowed "to express their own will."

Thangayya said, in a letter reply to one from the former U. N. commander, Gen. Mark Clark, that the commission had kept an "open mind" and is determined to gain for the prisoners "complete freedom of choice without duress or coercion."

British Pour

of the colony's chief sources of revenue.

Jagan accused Sir Alfred Savage, governor of the colony, of calling for the troops without consulting his elected ministers.

GEORGETOWN, British Guiana (AP)—British reinforcements were sent to this uneasy colony today as Jagan's troops were believed to be marching here under "military secrecy."

The small group of Europeans in British Guiana welcomed the arrival of three troop-carrying British warships but leftist Prime Minister Cheddi Jagan assailed the "show of force."

The airborne troops—120 men of the Royal Welsh Fusiliers—left the West Indies island of Jamaica at midnight for Georgetown aboard five chartered airliners. Other members of the Jamaica garrison had sailed earlier on the three

Scott Ross, Mrs. Karl Weeks, Mrs. Jim Hill, Mrs. D. G. Richards, and Mrs. Paul Edwards. The program was closed with the motto:

During the social hour the hostess served a salad plate and coffee to seventeen members and one guest, Mrs. P. D. Smith.

Mrs. Herman A. Knorr

Guest Speaker at DAR
Mrs. Herman A. Knorr of Pine Bluff, State Regent of the DAR, was guest speaker at the monthly meeting of John Cain Chapter DAR Wednesday, October 7, at the Barlow Hotel. Mrs. Knorr, who was introduced by the local regent, Mrs. Dick Watkins, gave an interesting program on ways and means of tracing a family lineage.

Following the opening ritual led by Mrs. J. J. Battle, 1953-54 yearbooks were distributed by Mrs. J. G. Martindale and a booklet entitled "Etiquette of the Stars and Stripes" was given each member by Mrs. Battle. Mrs. John Keck was installed as secretary of the local chapter.

Mrs. Gus Haynes gave a short talk on "National Defense News" stressing intelligent voting.

The dining table was decorated with settings of red and yellow cockscomb and green caladium leaves. Hostesses were Mrs. Lloyd Spencer, Mrs. Battle, and Mrs. Watkins. Lunch was served to twenty members, and seven guests, Miss Barbara Cook of Lewisville, Mrs. H. H. Darnall of Texarkana, Mrs. George Peck, Mrs. A. E. Shusser, Mrs. Syd McMath, Mrs. E. S. Richards and Mrs. L. L. Pilkinton.

Hospital Notes

Julia Chester
Admitted: Mrs. J. F. Martin, of Hope, Mrs. H. J. Alton, Hope.
Discharged: J. W. Stafford, of Hope, Mrs. Lula Pipkin, Hope.
Mr. and Mrs. J. F. Martin of Hope announce the arrival of a son on October 7.

Branch
Admitted: J. P. Webb, Washington, R.I.
Discharged: Robert Meyers of Hope.

Clubs

Liberty Hill
Mrs. Lester Beckham was hostess to the Liberty Hill Home Demonstration club Friday afternoon, October 2.

After the meeting was called to order by the president, Mrs. E. H. Byers, the hostess and her husband favored the group with a duet, "I Feel a Change in My Soul." The club members sang "What a Friend We Have in Jesus."

During the business session, some of the Christmas cards were paid for.

A group discussion was held on the cleaning and adjusting of sewing machines. Each member of the club told of the bulbs she was planting.

During the recreation hour, Mrs. J. L. Light and Mrs. Clyde Sanders received game gifts.

The hostess, assisted by Mrs. Sanders, served refreshments.

The next meeting will be in the home of Mrs. J. L. Light.

Do CRAMPS
give you that
monthly look?
Why let tell-tale misery, "nerves" show in your eyes? Does your mirror show an older-looking, worried, nervous face during your "bad days"? Why let men see that you are suffering from monthly cramps? Try a little CARDUI each day. It's the thousands of women do. Let it help build strength and resistance so you have less and less misery each month. Some go through periods without feeling any discomfort at all. Also helps relax jittery nerves—sleep better. Look, feel, act younger, more normal all month. Ask for CARDUI (Bayer "aspirin" type).

DOROTHY DIX

Marriage, A Partnership

Dear Miss Dix: I would appreciate your views on whether the wife's promise to "obey" should be included in her marriage vows, together with the related question of whether the husband should be the boss of the wife in the marriage relationship.

EUGENE E.

No Boss in Home

Answer: Are you marrying a wife or hiring a housekeeper? Marriage is a partnership — there's no place in it for a boss, be it man or wife. Whether or not the promise to obey should be included in the marriage ceremony is up to the wife of the church in which the wedding is held. Most religious services, I believe, omit the word, substituting for it, "cherish," or "to have and to hold," which are certainly more appropriate to a good marriage relationship than the arbitrary "obey."

If you are planning marriage with thoughts of being a boss, I think you should shelve the whole idea. Establishing a home and family is not a job for one person and an underling. It's something to be undertaken by two responsible, intelligent, conscientious individuals, each of whom is fully aware of his or her respective part.

As children come, they must be taught that there's authority in the home — not dictatorship vested in one parent. There should be a head of the household, as the final court of appeals, or as judge to make a difficult decision, but the leadership is not to be exploited by a bossy husband, or a dictatorial wife.

I wouldn't want you to marry a girl who had high-handed ideas of running a home, but neither would I like you to start housekeeping with the notion that you could run everything exactly your way. Aim for the middle course with the right girl, Eugene, and you won't even want to be "boss."

Dear Miss Dix: My husband and I have been married twelve years, and have three children. For some time my husband has been having

Poultryman Seeks to Recover Tax

LITTLE ROCK, AP—J. E. Sawyer, a Pine Bluff poultry raiser, filed suit in Pulaski Chancery Court yesterday to recover \$4,831 in state sales tax.

Sawyer said he paid the tax on feed purchases made outside the state from July, 1949, to December, 1952. He contends the purchases are exempt from sales taxes according to the Arkansas Gross Receipts Tax Act.

Sawyer operates the Freeman Farms at Pine Bluff.

Mississippi at Lowest Level

MEMPHIS, AP—The Mississippi River was believed at its lowest level in history here yesterday. The reading was zero minus 2.75 feet. The previous low as zero minus 2.65 feet set in November 1955.

"Zero" was the lowest level the river was believed to have ever reached when the markers were set in 1871.

The minus 2.75 reading means the river is about 90 feet deep in midchannel.

warships which arrived off the capital city yesterday. Jagan accused the governor of the colony, Sir Alfred Savage, of calling for the troops without consulting his elected ministers. "The responsibility for whatever may happen is entirely that of the governor and those who have advised him," the fiery leader of the People's Progressive party PPP told the Colony's House of Assembly yesterday. The PPP, which holds 18 of the Assembly's 24 seats, is demanding greater self-government and a trimming of the governor's powers.

Officials Feel Russia Not Ready for War

By CHARLES F. BARRETT
For James Marlow

WASHINGTON, Oct. 7 — For weeks the big question in official Washington has been what to do about defense against Russian atomic bombs, both conventional and hydrogen.

The answer holds the key to taxes, the budget, the national economy, possibly even life itself. Now, amid much speculation, defense officials apparently have reached their fateful decision.

Secretary of Defense Wilson, who next to President Eisenhower is most directly responsible, and presumably the best informed, told a news conference about it Tuesday.

He said the administration plans no new all-out, multi-billion-dollar air defense system from the frozen Arctic to home soil, as some have proposed.

Instead, he outlined a buildup in continental air defenses costing something like an additional 500 million dollars next year.

Why? Are we leaving our homes and factories inadequately guarded against a frightfully real and present danger?

No, Wilson says. He said he doesn't think Russia will have the bombs and planes to launch sustained atomic warfare for about three more years. The United States now is three years ahead of Russia, he said.

In short, he said, he doesn't think Russia will start a war when all the evidence shows she would lose.

But if war should come, would any amount of effort and expenditure really guarantee an invulnerable defense?

No, many defense officials say. Their theory is that the hydrogen bomb potentially is so destructive, so terrible, there is no defense — except peace.

The defense system mapped out by some scientists calls for fleets of radar warning networks, guided missiles and interceptor fighter planes, to subject any enemy bombers to constant attacks for hundreds of miles before they even reach the United States.

Estimates of the cost range from 30 to more than 90 billion dollars, over a period of years.

Some scientists believe a maximum system could knock out 85 to 95 per cent of invading planes.

Here are some of the factors military officials have weighed against this approach:

1. Many of the proposed devices and weapons are not perfected yet, or have not been tested. Some military officials voice doubts about claims of an 85 to 95 per cent knockout of a raiding force.

2. But even if only 5 to 15 per cent devastation could be appalling. If they hit key spots, they might be enough to cripple any sustained U. S. war effort.

3. And even if the United States were relatively impregnable, what about the rest of the free world? Certainly Western Europe, Asia, Africa and South America cannot build such systems. The United States does not want to be left alone, surrounded by an aerial Maginot Line.

4. The system would be designed for defense against existing or foreseeable jet bombers. But by

JUST WAIT 'TIL I CLEAN MY GUN—The noise of military maneuvers and the threat of Dutch soldiers cleaning their guns doesn't seem to faze the chickens grubbing around in a Delmenhorst, Germany, back yard, but the riflemen have that "Oh, boy, chicken!" look. The soldiers are part of the 432nd Battalion Limburg, taking part in "Exercise Grand Repulse."

A Man Can Win the Success He Wants in Life If He Sticks to a Simple Principle

By HAL BOYLE

NEW YORK — Wilbur Clark, who works a \$5,000 wrist watch, is a fine example of how a man can win the success he wants in life if he just sticks to a simple principle.

The principle Wilbur chose was the old copybook maxim that if you build a better mousetrap, even in the wilderness, the world will beat a path to your doorway.

But of course you have to interpret those old copybook rules the right way to make them work. Wilbur decided the better mousetrap was one no mouse would want to get caught in — but people with loaded pockets would fight to enter.

And has it paid off? Listen to Wilbur:

"I guess we're the biggest single operation in the state now. Our expenses alone run \$15,000 a day. We netted better than a million dollars last year. We have 650 employees, 250 more people than live in my old home town."

Wilbur, a friendly, greying 42-year-old... uh, well... industrialist, not only has a \$5,000 wrist watch and runs one of the world's pushiest mousetraps. Life has given him other rewards. He is a mayor, the vice president of this local Chamber of Commerce, and has been named one of the nation's 10 sign his own \$250 suits, won't allow a buttonhole in his lapels.

"Why punch a hole in a good piece of cloth if you don't like wearing flowers?" he asked reasonably, waving a hand on which a five-karat diamond ring shone with the subdued charm of a locomotive headlight.

Clark's career follows the classic Horace Kroeley pattern. West young man. He left his native Keyesport, Ill., pawned his high school ring for \$1 in Los Angeles, and worked as a bus boy and bell hop in San Diego before obtaining a job in a gambling establishment.

From then on his rise was more rapid. Wilbur saved his pennies, worked for a number of gambling houses about the country, bought some of his own, went broke and started over again. Wilbur, who has no taste for a pool room atmosphere, all the time was dreaming of his better mousetrap, a luxurious resort casino such as those in Europe, where a man could get a duck without getting his foot caught in a cuspidor or having to look both ways for the cops.

Today's Wilbur's dream of a better mousetrap has come true — the fabulous Desert Inn at Las Vegas.

At Wilbur's gilded 4½ million-dollar inn the weary, wayworn traveler may rent a room for from \$5 to \$50 a day, play golf on a million-dollar 18-hole grass course in the desert, and for \$5.50 eat a steak dinner and see a floor show that would cost him to \$50 or more in New York. The same traveler can shake his thirst 24 hours a day — or invest anything from a nickel to \$1,000 (that's the limit) around the clock in the Casino.

The Casino has 90 slot machines, three roulette wheels, six blackjack tables, five crap tables. Their winnings, of course, subsidize the time the system was completed, these bombers might be obsolete, and a greater threat then might be from huge guided missiles, submarines or other weapons.

5. The tremendous economic effort required for such a relatively stationary defense system would drain away funds from U. S. retaliatory striking power and development of new offensive weapons. And it would threaten vast deficits, rapid inflation and economic controls.

On the other side, supporters of an all-out continental defense say no effort, no expense is too great to provide all the protection available. As vast as the program seems, they argue, the danger is so great and so frightful the nation can do nothing less.

Thus the administration decision still could be upset by Congress. Rep. W. Sterling Cole (D-Wy.) chairman of the Senate-House Atomic Energy Committee, has said if the people knew what he knows, they would forget about balancing the budget and lower taxes and would be willing to pay 10 billion dollars more a year to improve air defense.

idize the floor shows, which feature such anem stars as Betty Hutton or Herb Shriner and cost up to \$35,000 a week, half the price of putting on a Broadway show.

"You can't stop people from gambling," said Wilbur, which may explain why he wisely refrained from putting locks on the Casino doors. "But a guest could stay here for a week and never make a laydown, and we wouldn't know it? Whether he goes into the Casino or not."

"I believe if you give people what they want, and most people want the best, they'll come to you. We turn away 200 people a day."

Clark has a list of 40,000 guests from all parts of the world, feels he knows 30,000 of them himself, and they range "from a Chinese general and a federal judge on up." His customers aren't the kind who go broke, and his only trouble is a bum check now and then. But his bad check losses probably are not more than \$150,000 or so a year, Chickentrend.

Wilbur wears no jewelry beside his \$5,000 watch, his ring, and platinum cufflinks in the shape of a pair of dice studded with 20 rubies and 80 diamonds. He is basically a man of simple tastes. He designed the watch himself, and has to take it off 50 times a day to show to curious guests. It is made of solid platinum with his initials in diamonds and a ruby here and there to keep the eye from going snowblind from the platinum.

"It keeps good time," said Wilbur. But when I looked at it, his \$5,000 watch said 11:26, and an automatically synchronized clock on the office wall said 11:28.

His watch might be two minutes late. But nobody could accuse Wilbur of being behind the times.

Doctor Makes Cheap Kidney, Saves Life

By ALTON L. BLAKESLEE
AP Science Reporter

CHICAGO, (AP) — A young doctor today told of making an artificial kidney for \$75 out of a kitchen pressure cooker and sausage casing.

It helped save a young woman in convulsions and coma due to an error in blood transfusion, Dr. William L. Inouye of the University of Pennsylvania School of Medicine told the American College of Surgeons.

Several hours after the kidney was put to work to purify her blood, she woke up, saw Dr. Inouye eating a sandwich, and said, "Doctor, I'm hungry." He was munching the sandwich to relieve his own hunger during the six-hour treatment.

Dr. Inouye and Joseph Engelberg, and engineer, developed the kidney, starting with a gallon-size pressure cooker costing \$10.

Inside it, they put a stainless steel core \$3 and 27 feet of sausage casing or plastic tubing 75 cents wrapped around this core. There's also a plastic screen or filter \$1. But it costs about \$50 to have inlet and outlet fittings machined into the cooker.

Blood from a tube put into the patient's artery enters the cooker and circulates through the tubing, then back into the body. Waste products in the blood ooze through the tubing into a fluid inside the pressure cooker. The cooker supplies an air-tight system so there's less pressure in the fluid than in the blood in the tubing.

No pump is needed. The artery pressure of the blood is enough to circulate blood through the tubing. The compact little kidney can be suitable for small hospitals having trained personnel, Dr. Inouye said.

Artificial kidneys can benefit people actually sick because of temporary kidney failure due to accident, shock, or blood transfusion reactions. They cannot do much for persons with chronic kidney disease.

Plastic skulls are being tailored up in 15 to 20 minutes to cover bone defects in human heads, another surgeon said.

A soft plastic is molded to fit the gap, then it is hardened, sterilized, and sewed or screwed into

Senators Urge Plain Talk on Atomic Issues

By JOHN CHADWICK

WASHINGTON, Oct. 7 — Several Democratic senators said today confusion is being spread by Eisenhower administration spokesmen on the danger of an atomic or hydrogen bomb attack by the Russians.

"It is high time that the National Security Council or the President himself made a plain statement of the facts as they are known in this matter of life and death," said Sen. Kefauver (D-Tenn.).

The New York Times said today that Eisenhower "has decided to put a stop to loose official talk

about the Soviet Union's possible hydrogen bomb and related subjects."

A Washington dispatch by James Reston said the President was annoyed by what one leader called "atomic blabbermouths" within the governmental family.

Eisenhower, Reston wrote, has passed the word that he wants all official statements on this subject to conform to the decisions of the National Security Council or to be cleared at the White House.

Asked about the report, White House sources who were available last night said they knew nothing of a crackdown.

President Eisenhower had an opportunity to speak out at a news conference late today if he wished.

In a speech in New Jersey two days ago, he said the "mysteries of the atom" are known to Russia, he warned that atomic warfare might doom "every nation and society."

Later the same day Secretary of

Asks Drouth Aid for All Arkansas

LITTLE ROCK, Ark. — Sen. J.W. Fulbright (D-Ark.) has asked Secretary of Agriculture Benson to designate all Arkansas counties as a drought disaster area, making it eligible for low cost feed.

W. L. Jameson Jr. of Magnolia, chairman of the State Drought Committee, said today he had received a copy of the letter which

Fulbright sent to Benson. Fulbright said in the letter he was basing his request on personal observation during an extensive trip throughout the state in the past six weeks.

Said Fulbright: "Administration of the disaster program would be more equitable if the entire state were made eligible for drought relief. The drought has by no means followed county lines."

A Senate agriculture subcommittee will conduct a hearing here Thursday on Arkansas' drought plight.

In the famous Rosary chapel of Santo Domingo in Puebla, Mexico, clay tiles with angel faces as the motif alternate with other decorative tiles in the main frieze.

Arkansas Road Work Totals \$27½ Million

WASHINGTON — Arkansas has some 27 and a half million dollars worth of highway either under construction, in the approved-plans stage or being programmed.

The federal government is to supply \$14,071,000 of the total \$27,645,000 cost for construction of the 753 miles of highway.

A Federal Bureau of Public Roads report, which released the totals yesterday, also listed this breakdown of the construction:

Under construction (as of Sept. 1): 284 miles of road work worth \$11,579,000; Federal share, \$5,714,500.

Approved: 103 miles costing \$3,177,000.

Programmed: 303 miles costing \$12,889,000.

Besides the money the state government has received, an additional \$4,073,000 in federal funds is available for which no work is programmed. The money can be used only on a dollar-for-dollar matching basis.

Army Suspends Laboratory Workers

WASHINGTON — The Army announced last night the suspension for security reasons of an undisclosed number of persons at its Signal Corps Laboratory at Ft. Monmouth, N. J.

It declined to give details. The Chicago Tribune press service said that among five persons suspended were two "top scientists engaged in the development of America's radar defenses against enemy attack."

The Tribune did not disclose the source of information for its copyrighted story, but said the Army's investigation stemmed from an inquiry by the Senate investigations subcommittee headed by Sen. McCarthy (R-Wis.).

The Chicago Tribune account said those suspended included "two other scientific workers and a clerical employee, similarly employed in top secret military work."

Runaway Girls Have Narrow Escape

ANN ARBOR, Mich. — Two emotionally disturbed runaway girls climbed onto a New York Central streamliner here yesterday and clung to the canvas like wind breakers between cars as the train hit speeds up to 30 miles an hour.

They had little more than a tooth-hold. A slip would have meant death.

They were finally spotted by a trainman at Ypsilanti and the train was brought to an emergency stop at Wayne, 19 miles from here, where they were removed.

The two ran away from the Neuropsychiatric Institute at the University of Michigan. They told sheriff's deputies they ran away because they were "kept in a ward with 27 boys."

Dr. Raymond W. Waggoner, director of the institute, termed their story absurd and fanciful. Deputies said the two had no idea where they were going.

Both were returned to the institute.

LUCKY GUY

MALONE, N. Y. — Eugene Harrington, 22, is in a hospital here nursing a crushed nose, and he's lucky to be alive.

Harrington, a laborer employed by the town of Malone, fell from the rear of a truck yesterday and into the path of an oncoming steam roller.

His fellow workmen reported that the massive, steel cylinder narrowly missed smashing his skull and passed over only part of his face.

MR. KNOW-IT-ALL—They're a little skeptical, but Pvt. Mary Barlow, left, and Cpl. Joan Stewart listen to the answers to questions they've asked the "Know-It-All" talking robot at London's National Radio Show. Sgt. Bernard Scottin demonstrates "Mr. Magnestron's" electronic-powered speaking ability.

Production of Crude Oil Drops

TULSA, Okla. — The nation's daily average crude oil and condensate production dropped by 46,975 barrels during the week ended Oct. 3, the Oil and Gas Journal reported today.

The decline came before the effect of recently ordered reductions in allowances could be felt fully in such big producing states as Louisiana, Kansas, Oklahoma and Texas.

Illinois led the seven states which advanced, up 4,400 barrels to 169,600 barrels. Kansas was the biggest loser, down 21,000 barrels to 306,300.

Other losses included Arkansas down 450 barrels to 73,250.

Tongay Trial to Be Set Soon

MIAMI, Fla. — Date of trial for Russell Tongay, charged with manslaughter in the death of his

swimming star daughter Kathy, will be set Tuesday.

Tongay, 36-year-old former swimming instructor, pleaded innocent to the charge in Criminal Court yesterday and Judge Ben Willard said he would set trial date next week.

The state charges Tongay with "causing, permitting and commanding" the 5-year-old Kathy to "perform acts inherently dangerous" by ordering her to jump from a high tower into a pool of water.

The information also said that Kathy "struck the water with great force... causing her to sustain and suffer mortal injuries."

Kathy and her brother Bubba, 7, made several long distance swims and played in a motion picture. Kathy died last May shortly after diving from a 33-foot tower into a pool. Tongay is free in \$1,000 bond.

At the vernal and autumnal equinoxes, about March 21 and Sept. 21, night and day are the same length throughout the world.

Wants Slash in Corporation Tax in April

By JACK BELL
WASHINGTON — Sen. Millikin (R-Colo.) said today he thinks a five-point reduction in corporation taxes should go into effect on schedule next April 1 as a stimulant to business.

Millikin, who heads the tax-writing Senate Finance Committee, thus served notice on administering leaders that he is not now ready to go along fully with the tax program laid down last May by President Eisenhower.

Secretary of the Treasury Humphrey said in New York Monday that the administration's request for continuation of a maximum of 52 per cent taxation on corporation incomes, still stands, as does its request for continuation of present excise levies.

Under present law, the top tax on corporation incomes will drop on April 1 from 52 to 47 per cent. This is separate from the tax on corporation profits legally defined as excessive, which is due to end on Dec. 31, the same date a 10 per cent cut in individual income taxes is scheduled. Also on April 1, excise sales taxes are due to drop to pre-Korean levels.

Presbyterians Open Clarksville Meet

CLARKSVILLE, Ark. — Rev. Roy Smith of Sapulpa, Okla., delivered the sermon which today opened a session of the Northern Presbyterians Church's Oklahoma Synod.

The National Missions Committee met yesterday with Mrs. R. G. Carl, Enid, Okla., heading the Women's Committee and the Rev. James Spivey, Bartlesville, Okla., as chairman of the Men's Committee.

Phone Operator Prevents Fire

ARKADELPHIA — A telephone operator's quick thinking was credited yesterday with averting an early morning hotel fire.

Miss Rosie Marie Bowers, a Southwestern Bell Telephone Co. employee, was on duty at 4:30 a. m. She saw a switchboard light flashing. When she heard nothing but a crackling sound, she called police.

Police went to the Siftings Herald Office Supply Store, where the call originated.

They found a fire and called firemen, who put out the flames.

The Caddo Hotel is situated above the supply store and firemen said the fire could have penetrated a wooden wall and entered the hotel.

Army Shows New Non-Atom Weapons

ABERDEEN, Md. — The Army took the wraps off some of its hitherto secret equipment today in a display at the Aberdeen Proving Ground, but a number of atomic age guns and gadgets were conspicuously absent.

Ordinance items on view ranged from the latest in protective body armor to the new 200 mm. atomic cannon, set up to fire a conventional shell.

But, abiding by the terms of an order issued last spring by Secretary of Defense Wilson, the Army made no effort to display such items as the new Nike antiaircraft guided missile, the "Ontos" carrier for antiaircraft weapons or the new T43 heavy tank. The Wilson order prohibited for reasons of security

GOOD NEIGHBOR—Dr. Ernesto V. Diaz, of Caracas, Venezuela, is the new general secretary of the 10th Inter-American Conference to be held in Caracas in March, 1954.

He succeeds Don Manuel Arocha, who leaves the post because of illness. A lawyer, Dr. Diaz previously served on the International Economic and Social Council.

and economy any "public demonstrations of important new weapons and equipment."

The 200 mm. cannon which fired its first atomic round in Nevada last spring was out in the clear for public demonstration.

The Army, which has emphasized the mobility of the huge, 85-ton gun, scheduled bridge crossings today to prove that it can be moved virtually anywhere in a battle zone.

Doctors at Walter Reed Army hospital in Washington telephone patients' medical records to a stenographic room where they are recorded on discs and later typed.

U. S. Personnel on Morocco Base Limited

By TOM MASTERSON

PARIS, — France is telling only 7,500 Americans enter Morocco to man the huge U.S. Air Force bases there, and American officers said today that number soon won't be enough to do the job.

Three of the jet bomber and fighter bases will be finished in the near future—at a cost of nearly \$60 million dollars. U. S. officers say they will need a marked increase in troops, perhaps nearly double the 7,500 now allowed under present U.S. agreements with France. Two more bases are still to be built.

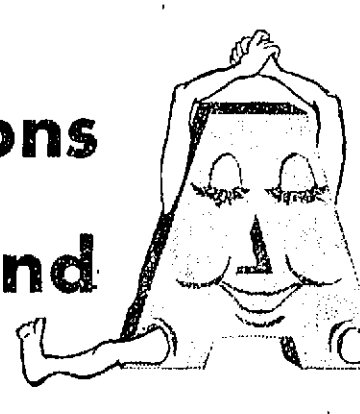

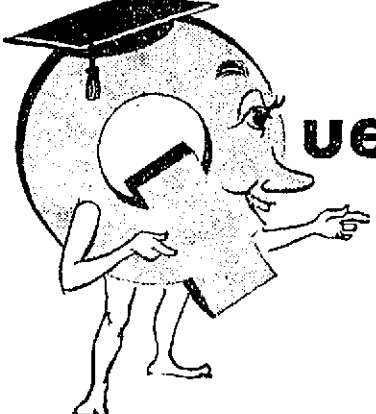

French officials say the limit on troops was agreed to in the first contract authorizing the United States to build bomber bases. This limit will be continued, one authoritative spokesman said, until a "status of forces" agreement can be worked out covering the operation and administration of the bases and control of the military forces there.

The spokesman said France will allow no more men on the bases until a more workable agreement has been reached. That now is being negotiated, but the differences have continued for two years.

American officials in Paris indicated the negotiations were going on acceptably well. A "Status of forces" agreement covers such things as which nation's courts try soldier offenders, hiring and flying of civilian personnel and transportation.

The Arete tern holds the record for long flights. Each season it flies from the far north to the shores of the Antarctic continent, a distance of approximately 7000 miles.

MEMO TO ADVERTISERS

Questions and answers about NEWSPAPER ADVERTISING

Q. What are the 3 most important rules for profitable newspaper advertising?

- A. 1. Your advertising message should be newsy, friendly, informative, easy to read. Give facts and news about your merchandise and service.
2. Advertise regularly. Make your advertising do what successful salesmen do—call on customers and prospects consistently.
3. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

Q. Is there a measure for the value of newspaper circulation to an advertiser such as the standards a merchant uses in buying merchandise—for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the AUDIT BUREAU OF CIRCULATIONS.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

Q. What does A.B.C. do for me?

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

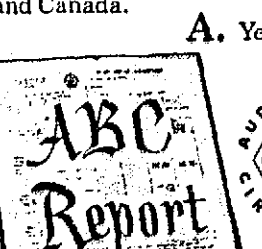

A. A.B.C. reports tell you how much circulation, where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.C. membership?

A. No. Only those with paid circulation. This is important to advertisers because it is evidence that the paper is wanted and read.

Q. Is this newspaper a member of the Audit Bureau of Circulations?

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C. report.

Youth Killed as Police Seek Car Thief

CHICAGO (UP)—A policeman was wounded and an 11-year-old boy was killed in the crossfire of a running gun battle, started when an auto thief suspect ran from a police station.

More than 25 squads of police today searched the tumble-down tenements and cluttered alleys of Chicago's South Side for the fugitive.

The boy, Daniel De Cero, was struck in the neck and head as the suspect ran from the East Chicago police station last night firing at pursuing officers. Daniel was walking to a neighborhood ice cream parlor.

It was not immediately known whether the fatal bullets were fired by Policemen or the fugitive, Corey Robinson, a 19-year-old Negro.

Daniel died a short time later at South Chicago hospital.

Policeman James Quinlan, 50, was wounded in the left thigh during the gun battle.

Robinson, his gun blazing, continued his dash across the street and outdistanced police, eluding them in a vacant lot.

He drove south in a car he had

Medicine Helps Narcotic Addicts

DALLAS, Tex., (UP)—Fewer people are becoming narcotic addicts as a result of medicine given under a doctor's care.

Addiction resulting from medical treatment has dropped from 5 per cent to about 1 per cent in the past 20 years, Dr. William F. O'Connell of the U.S. Public Health Hospital at Fort Worth said yesterday.

Dr. O'Connell, addressing the Texas Surgical Society, said narcotic addiction on the whole is on the decrease in the United States.

He said one out of every 1,000 military recruits was rejected for drug addiction in World War I but that figure dropped to one out of 10,000 in World War II.

been driving when arrested for speeding with a 15-year-old companion.

The car was found abandoned on Chicago's South Side. An order was broadcast over police radio to search "alleyways, alleys and arcades in the vicinity between 10th Street and 14th Street and Avenue J and H."

Police, aided by five department light trucks, searched the area throughout the night.

Work to Resume on Highway 270

LITTLE ROCK — The state Highway Department has ordered a go-ahead in construction work on a section of Highway 270 near Lake Quabbin, scene of a fight between a construction firm official and a department employee.

Highway Director Herbert Edridge said today that work will proceed on the relocation on a section of road in Montgomery County.

Chief Engineer Alf Johnson last week held up the project after Jerry S. Sorenson of Hazen, Sorenson & Sorenson Construction Co., and Gilbert Smith, resident engineer, came to blows.

Sorenson last week was granted a temporary court injunction to keep the Highway Department from holding up work.

Edridge said the original work stoppage was only temporary and there was nothing unusual in the department's order to continue construction.

Edridge said the department planned a thorough investigation of the fight. He added that he doubted whether a special hearing would be held, but the participants might be contacted individually.

Notable clay tiles of the 18th century were created by an unknown artist for the old life bath excavated in the early 1900's in Calle de las Huertas, Puebla, Mexico.

Dodge Offers New Royal V-8 for 1954

Highlight of the 1954 Dodge line is the new super deluxe series known as the Royal V-8. A completely new interior styling is keyed to harmonize with 11 different body colors and 14 two-tone combinations. The Royal V-8 series is keynoted by Jacquard upholstery fabric, previously used only for rich tapestries and expensive furniture. On the exterior, a new spear-like chrome moulding accents the low, sweeping lines and lends a smooth, modern look. There

also is a new grille design and treatment of headlights, taillights and wheel covers. The 1954 Dodge line also introduces such engineering advancements as PowerFite, a new fully-automatic transmission; the economy-and-endurance tested Red Ram V-8 engine stepped up to 150 h.p. and 7.5 to 1 compression ratio; and a new type full-time power steering unit. The Coronet Six and Meadowbrook Six have been stepped up to 110 h.p. and 7.25 to 1 compression ratio.

New Luxury Model Dodge Arrives

Unveiling of a new super deluxe series known as the Royal V-8 will be the highlight of the 1954 Dodge passenger car line when it is introduced in dealers' showrooms across the nation tomorrow (Oct. 8) in Hope at B. R. Hamm Motor Co.

As Dodge launches its 40th year with the most luxurious car ever to bear the Dodge name, it also will introduce completely new interior styling, more than a dozen body beautifications and several major engineering advancements in its entire line consisting of 20 different models.

W. C. Newberg, president of Dodge Division of Chrysler Corporation, said the 20 different models are in three series — the new Royal V-8, the Coronet V-8 and Six, and the Meadowbrook V-8 and Six. They are being offered in 11 new body colors and 14 two-tone combinations that are keyed to harmonize with the completely new interior styling.

Newberg announced that the 1954 Dodge line also offers such mechanical advancements as the economy-and-endurance tested Red Ram V-8 engine stepped up to 150 h.p. and a 7.5 to 1 compression ratio; PowerFite, a new fully-automatic transmission; and a new full-time power steering unit. Meadowbrook V-8 models will continue at 140 h.p. The horsepower of the six-cylinder engines has been raised to 110 and the compression ratio to 7.25 to 1.

Although the new Royal V-8 features super deluxe appointments and fittings, Newberg pointed out that the entire 1954 Dodge line is marked by many new styling changes.

On the exterior, a new spear-like chrome moulding accents the low, sweeping lines. Combined with a four-inch increase in the overall length of four-door and club coupe models and a five-inch increase in the sport coupe and convertible, the new exterior trim lends a smooth, modern look to the entire line.

Other major body changes include the grille design and front end. The new grille is lower, wider and has a more massive appearance. The traditional ram hood ornament has been streamlined, and a distinct, new styling has been given the V-8 crest and the chrome-lined air scoop. Headlights have been redesigned and bumper guards have been modified.

In restyling the interiors of the entire line, R. C. Somerville, Dodge vice-president, revealed that his division had contracted for all available mill capacity on a new type of upholstery fabric known as Jacquard.

"Although new to the automotive industry," Somerville said, "Jacquard is a class of exclusive fabrics previously used only for rich tapestries and expensive furniture. We have chosen Jacquard for the 1954 Dodge because it is adaptable to unusual and elaborate patterns that contribute an entirely new feeling to our interiors."

The interior fabrics, named after a special loom and weaving pro-

cess invented by Joseph Marie Jacquard in 1801, is tightly woven to provide wear resistance. At the same time it enables designers to incorporate double patterns by using a raised nap. Three basic color tones — green, blue and red — are featured in the patterns designed for use on 1954 Dodge models.

As part of the interior styling the Dodge line, all trim harmonizes with the upholstery colors. Items such as the instrument panel, garnish mouldings, deep-pile carpeting, head lining and steering wheel are finished in the same basic color as the upholstery fabric. In turn, all of the interior color schemes are in harmony with the exterior body colors.

Another interior feature is the instrument panel, which not only is a matching color, but introduces a new automotive finish known as "Leathertex." The top portion of the instrument panel has a grainy or leather-like finish to reduce glare, while the bottom has a soft, smooth finish in the same color.

A new benefit to the driver was described by Somerville as "four-corner contact." He explained it as a feature that allows the average driver to maintain visual contact with all four fender lines.

"It is accomplished in the front," Somerville related, "through a combination of chair-high front seats that rise as they move forward, sloping hood and large one-piece windshield. In the rear it is made possible by the chair-high seats, wrap-around rear window and newly-designed chrome trim that accent the rear fender lines."

Somerville also said that the 1954 Dodge line has a choice of two transmissions. In addition to the new, fully-automatic PowerFite drive, Dodge is making available the standard three-speed transmission, either with or without automatic overdrive.

PowerFite, which requires no clutch pedal, combines a torque converter and a two-speed planetary gearbox in a smooth-flowing operation. It is 100 pounds lighter than the heaviest competitive unit and contains some 110 fewer parts than the most complicated of these. Dodge engineers claim it will deliver more accelerating power more smoothly than any other transmission.

Operation of PowerFite is simplified for the driver by the slotted design of the selector lever. Neutral and drive positions are on one level of the selector lever. Reverse and low gears, on a higher level, are selected by a slight lifting of the lever and sliding left or right. This makes it possible to select a driving range by "feel," without looking at the pointer. Also, because reverse is adjacent to neutral, it eliminates the dangerous practice of shifting through a forward gear when backing up.

In driving the new PowerFite, the driver starts the engine in neutral, shifts to drive and depresses the accelerator pedal. The car accelerates in low gear. At some speed between 15 and 65 m.p.h., depending on the driver, PowerFite automatically upshifts into direct drive. At any speed under 55 m.p.h., the driver may secure extra acceleration by pushing the pedal to the floor board into Dodge's familiar "scat" gear. This special gear assures quick, safe passing. A low range also is provided to retain the car in low gear for road conditions such as

One Killed in Train Collision

KNOXVILLE, Tenn. (AP) — Southern Railway's crack Birmingham Special, Washington bound, was struck just before midnight by a string of runaway freight cars which glanced off a switch engine.

A railroad inspector was killed and two other trainmen were injured.

Gov. Frank Clement, en route to confer with President Eisenhower on the Tennessee Valley Authority, was aboard the stopped train with his wife and young son. But they, like the rest of the passengers, were not injured.

Wreckage was piled to the top of the viaduct near the Southern Railway passenger station in downtown Knoxville. High-voltage power lines were knocked down and the immediate area was closed.

Killed was Inspector W. O. Smelser, checking wheels on the passenger train at the time. Hospitalized with undetermined injuries were firemen J. E. Troutman, 32, and flagman J. C. May.

The freight cars had been turned out from shop 27 miles. A slight grade apparently gave them momentum after they broke away, so that they were traveling at least 25 miles an hour when they hit the switch engine. Both engineer and fireman jumped to safety.

The cars then bounced into the Special, knocking a hole in one sleeper car. None of the passenger cars was derailed or upset. Wreckage of the empty freight cars covered five tracks.

climbing or descending mountains. The new Dodge full-time power steering unit has direct control and is of the "linkage" type. It is less complicated, more compact, easier to service and has fewer parts than other systems. Dodge officials state that it eliminates about 80 percent of steering strain for the driver and always functions smoothly, regardless of hand pressure. In the event of power failure, full mechanical control of steering is maintained.

Of the 20 models being introduced, four are Royal V-8's. They are the four-door, club coupe, sport coupe (hardtop) and convertible. In the two Coronet series there is a four-door club coupe in a choice of either V-8 or six-cylinder power. Station wagons may be obtained as the Sierra four-door in either a six-passenger model with two full seats, or as an eight-passenger version with three seats, and with a choice of either the V-8 or six-cylinder engine. The other two station wagon models are the Suburban two-door with a choice of engines.

Interiors of both Sierra and Suburban models are upholstered in smart two-tone combinations of either a blue or green vinyl material.

KILLED BY TRAIN

PARAGOULD, (AP) — A 64-year-old Delaplaine woman, attempting to

chase a pet dog off railroad tracks

near her home, was fatally injured by a passenger train yesterday.

The victim, Mrs. Lilly Hawk,

survived by a daughter and three sons.

The U. S. Census reports that coal heats half the homes in the Middle Atlantic states.

Wire worms, army worms and grasshoppers are among the insects pestering Kentucky farmers.

SS Good Deal for Few, Bad for Others

By CHARLES F. BARRETT
For James Marlow

WASHINGTON, (P)—The social security program for the aged is one of the world's biggest bargains for some workers, but a poor one for others.

These variations in treatment—some congressmen call them inequities—are getting special attention from two investigative teams. The studies by a group of Eisenhower administration consultants and by a House ways and means subcommittee—could change the economic pattern of old age for millions of workers.

Here's how:

Under the present system, a special social security tax is levied on payrolls. This money goes into a special trust fund, from which death or retirement benefits are paid.

But a maze of rules governs who is eligible for benefits, and the level of benefits paid. The rules are based on the year in which a person reaches 65, the number of months' work under the program, average salaries, and so on.

Some congressmen have proposed to wipe out all these variations and start over with a system of uniform pension payments to everyone. The Republican party platform calls for a study of such a "universal pension."

Another proposal, reportedly favored by the administration, is to work within the framework of the present system on these points but modify any rules that cause undue hardships or inequities.

Against that backdrop, here are some of the rules of the present system and the variations in treatment they have produced.

To be eligible for retirement benefits, you must work under the system one half the time from January 1951 until you retire; or one half the time from the age of 21 until you retire. At any rate, you must work a minimum of 18 months in covered employment, and you are sure of at least some benefits if you work as much as 10 years.

Thus, some workers were covered for only 18 months after January, and then were at retirement age of 65 or older. They paid in a maximum of \$81 in taxes and became eligible for full benefits—\$127.50 a month for life for a man and his wife. On the average life expectancy, they would collect a total of about \$10,870 on a contribution of only \$81.

But many other workers will reach retirement age after 1971. They could work 9 3/4 years under the system, pay over \$700 in taxes, and then lose their job, or become disabled, or shift to work not covered by the system. They wouldn't get a penny back in retirement pay.

Another rule—you get no retirement benefits from age 65 to 75 if you make as much as \$75 monthly in employment covered by the system.

Suppose you have no other income and you can't get along on your social security payment—the average for a man and wife is about \$70 monthly. If you get a job as a night watchman, and make more than \$75 monthly, you don't get a penny from social security until you reach 75. After that, you can earn any amount and still get your pension.

This rule, apparently, helps to explain a big puzzle about social security—of the 6 1/2 million workers now eligible for retirement benefits only four million actually are collecting.

And, of course, the present retirement system does nothing for all those who reached retirement age before they could get the minimum of 18 months' covered employment. Of 13,400,000 persons now over 65, almost half are not covered by social security retirement. Their only chance for government help is to apply for direct relief, proving they are destitute.

Another rule: The level of benefits is based on your average monthly salary from your starting date—either January, 1951, or your 21st birthday. Thus the worker who held a steady job as good wages, and presumably would need help the least, gets the biggest payment. The fellow who worked intermittently, because of health or other reasons, or who made low wages, gets the least retirement benefit. Months not spent in covered employment are still counted in figuring your average present system.

Supporters of the present system say some disparities are inevitable—elaborate bookkeeping under the in the relatively early years of such a vast, complex and long range program. But eventually, they say, most of the inequities will disappear.

Firms Buy Bonds at Hot Springs

HOT SPRINGS, (P)—Two Little Rock firms yesterday purchased seven improvement revenue bonds from the city of Hot Springs for \$780,000. The bonds bear an interest rate of 4.25 per cent.

Cole Firm in Belief Attack Is Imminent

WASHINGTON, (UP)—Chairman W. Sterling Cole (R-NY) of the Congressional Atomic Energy Committee said today he is "standing firm" on his assertion that the threat of a Russian H-bomb attack is "real and imminent."

His appraisal of Soviet capabilities was directly at odds with that of Defense Secretary Charles E. Wilson, who told a news conference yesterday it will be "perhaps three years" before Russia is equipped to launch an H-bomb attack against American cities.

Wilson said he thinks it will take that long for Russia to produce "a reasonable number" of H-bombs and "bombers that could deliver them." He acknowledged that "the Russians do have the H-bomb" but said they "certainly are not going to deliver one bomb with one plane and having nothing to back it up."

In this connection, he hinted broadly that the United States already is prepared to deliver a deadly H-bomb counterpunch if war should come. He said there is "no reason to think the Russians want to precipitate a war at this time" because "they ultimately could not win."

Cole, who had previously credited the Russians with "H-bombs—plenty," told a reporter he did not wish to engage in a public dispute with the defense secretary and therefore would not comment on Wilson's remarks as such.

But he said he had no intention of modifying or retracting his own warning, because he believes the "only realistic assumption" on which U. S. defense plans can be based is that Russia now has, or soon will have, a formidable H-bomb arsenal.

Cole also repeated his belief that the Eisenhower administration should give up trying to balance the budget, if necessary, to undertake an immediate multi-billion dollar program of stepping up U. S. air and civil defense.

INJURIES FATAL

BLITHEVILLE (P)—Joseph Martin, 32-year-old Blitheville Negro, was injured fatally here yesterday when a hydraulic lift machine at a cotton warehouse went out of control.

Treasury to Go Very Near Debt Limit

WASHINGTON, (P)—The Treasury will soon borrow an additional \$272,000,000, close to the \$275 million dollar legal limit as it dunes approach.

This was disclosed yesterday by a Treasury spokesman, who also said the new borrowing must be sold by the end of the month or early November to make way for refinancing on Dec. 1, in its program of long term borrowing of 10 1/2 billion dollars.

Just before it recessed, Congress turned down appeals by President Eisenhower and Secretary of the Treasury, James B. Connelley, to give the government more borrowing authority by raising the debt limit to \$275 billion dollars. The debt ceiling is now \$272,000,000.

The spokesman, who asked not to be identified, told reporters W. Randolph Burgess, deputy to Eisenhower for debt management, is in the process of consultations with investor groups.

Burgess is probing the money market to determine if the Treasury can move another step ahead, making way for refinancing on Dec. 1, in its program of long term borrowing of 10 1/2 billion dollars.

Businessmen have developed a year-round air conditioner that heats in winter and cools and dehumidifies in summer, but uses air instead of fuel and water.

Girl, 15, Man of 40, Are Arrested

BARAGA, Mich. (P)—A 15-year-old Wisconsin girl claimed today she had planned to marry "him" and was "a mistake" to arrest her and her 40-year-old male companion.

Betty Bailey, 15, said she left her Crandon, Wis., home willingly with Jack Shelton, 40, who police identified as an ex-convict and forger, to her home in Baraga.

Despite the girl's admission she went willingly, Wisconsin authorities said anyone convicted of enticing a minor from home could be sentenced from three years to life imprisonment. They added that consent of the minor was no defense.

The Bailey youth was with Shelton and Betty when they were captured yesterday in Shelton's car, parked on a dump in the outskirts of Baraga. They had been sought since speeding away from the girl's home Saturday.

Michigan state police said they expected Wisconsin authorities here today.

Mrs. Rolfe Bailey, mother of Betty, was quoted in Crandon as saying that Shelton stopped at her home Saturday. After being ordered away, she said, he drove down the road and later intercepted Betty, fleeing with her.

Wisconsin authorities said Shelton had served a term for armed robbery and recently had been released from jail for a traffic violation.

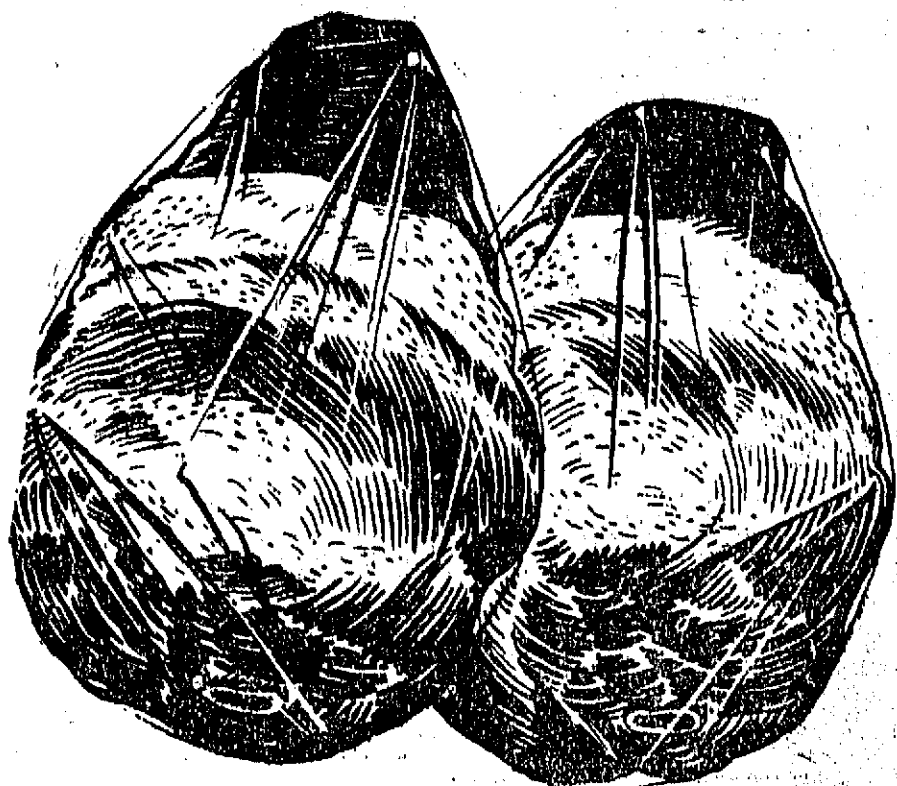

Raja (Lower) California in Mexico is rich in minerals, but lack of transportation has hindered large-scale development.

Dentists Get Latest Dope

FORT SMITH (P)—Northwest Arkansas dentists received pointers here today on latest methods in dentistry at a convention of the Northwest Arkansas District Dental Society.

The 12 counties represented at the meeting are: Sebastian, Crawford, Benton, Washington, Madison, Newton, Franklin, Logan, Pope, Johnson, Scott and Polk. The convention closes after election of officers this afternoon. It opened yesterday.

British Send More Men to West Indies

LONDON, (AP) — Tough and seasoned Scottish troops were ordered today to help smother an alleged Communist plot to seize power in the South American colony.

The War Office announced that the first battalion—about 600 men—of the famous Argyll and Sutherland Highlanders, who served nearly eight months in Korea, will sail for British Guiana on Oct. 10 aboard the giant carrier Implacable.

Three other warships—the 6,000-ton cruiser Ruler and the 1,000-ton frigates Barbary Bay and Burghley Bay—already were steaming at full speed carrying troops to the troubled colony on the northern shoulder of South America. The 9,000-ton cruiser Sheffield sailed from Scotland yesterday for the West Indies.

In the interim, a night of the Colonial Office said a fleet of possibly almost a dozen warships was about in the colony.

Agencies Told Not to Fire Career Boys

WASHINGTON, (AP) — The Civil Service Commission told all government agencies today to quit firing career employees in the drive to cut the federal payroll.

Commission Chairman Phillips Young told down the law in a letter "written by direction of the president" and obviously aimed at quelling criticism that layoffs have been midwinter.

Since there is a "cushion" of more than 700,000 temporary and indefinite jobs, Young wrote that "career employees generally can be assured of continuing employment." So long as their services are satisfactory.

Organizations representing disaffected federal workers have rapped the administration for letting out careerists in many cases while keeping employees with only indefinite status.

The personnel policies of the foreign operations administration have come in for particularly heavy attack.

Although the total number of career workers diminished this year was not given, the commission said nearly 5,000 had applied to it for help in getting new jobs.

Queen Won't Allow Any Nonsense

MONTREAL, (AP) — Britain's air line boss says there will be no "nonsense" about Queen Elizabeth II's trip to the United States this winter. He said the queen's trip is a fact, she'll start the trip in a U.S.-built strato-cruiser.

Mr. Miles Thomas, chairman of the British Overseas Airways Corporation, told newsmen here yesterday: "The strato-cruiser is larger and provides more space for her majesty and her entourage. All this talk by a London newspaper, particularly that the Queen should use a Comet jet is a lot of uninformed nonsense."

Mr. Miles explained the Queen's trip to his journey to Australia and New Zealand will be from London to Bermuda in late November.

"This route has not been tested for the Comet," he declared. "We are taking no chances."

Finds 4-Point Plan and Economic Plan

WASHINGTON, (AP) — Sen. Ellender (D-La.), back from a 45,000-mile trip, said today he had found the Point Four program of technical assistance to underdeveloped nations being converted into "an economic aid program."

The Point Four program is not being limited to inspiring American know-how, he said. Instead, he asserted, many costly capital investments are being made by impatient and overly ambitious administrators. The senator declared this appeared to him to be a misuse of funds and that he was determined to find out where the money came from.

State Impresses Western Experts

CROSSETT, (AP) — Forty-one West Coast investment experts left Arkansas yesterday, impressed with everything from the state's industry to its hospitality.

The group—which included two financial editors—will tour Mississippi and Louisiana for the remainder of the week.

After visits to El Dorado, Magnolia and Crossett yesterday, H.T. Peery, vice president of the Bank of America, said that Arkansas "is a great frontier... you have people to develop it."

Ed Berl of Edwin O. Berl & Son said if he were a young man, "I would divide my time between Arkansas and California."

"You've made a tremendous impression by your resolution from a marginal agricultural area to one of industrial importance," said J.H. McCannell, Mason Bros. assistant manager.

"Your hospitality... there was never anything like it."

The two-day tour through central, southwest and south Arkansas was sponsored by the Arkansas Power and Light Co.

ARAC President R. E. Richke,

Fat Calf Sale at Third Dist. Show Termed Successful With 21 Cents a Pound Average

The auction sale of fat steers shown by 444 Club and FFA youth at the Third District Livestock Show was very successful, closing the current cattle market. The sale averaged 21 cents.

The top steer, a choice 915 pound animal, was purchased by The Kruger Company for 35.50 per pound, a total of \$324.82. The animal was produced and shown by John Watkins of Vandeventer, Polk County.

The Buck Williams Market purchased the heaviest steer of the sale, a 1025 pound good steer, shown by Edward Hoggard of Magnolia, for 29.75 per pound, a total of \$305.88. The animal was produced and shown by John Watkins of Vandeventer, Polk County.

The Grady Williams Market purchased two good steers from Little River County, an 885 pound steer shown by Charles Cobb of Ashdown and an 825 pound steer of John Watkins of Vandeventer, Polk County, at 23.25.

James Morris, Hope butcher, purchased at 21¢ the 490 pound good steer of Jim Pickett of DeQueen.

Highly Montgomery market purchased the 515 pound steer of 18.25 and two steers of Don Ray Brown, weighing 450 and 465 pounds at 17 and 15.50.

The Southwestern Packing Company of Hope paid 19¢ for the good 815 pound steer of Johnny Heath.

PRESCOTT NEWS

Mrs. J. V. McMahon Entertains With Coffee

Mrs. J. V. McMahon entertained with a coffee and refreshments at the home of Mrs. J. V. McMahon, 1111 N. 1st St., on Friday afternoon.

Guests and mixed banquets in graceful arrangements were placed at points of interest in the room.

Members present included Mrs. E. Adams, Mrs. J. H. Remis, Mrs. Carl Doleymple, Mrs. Milford Daniel, Mrs. J. H. Franks, Mrs. C. R. Gray, Jr., Mrs. Frank Halton, Jr., Mrs. Bob Reynolds, Mrs. J. T. Worthington, Mrs. R. F. Yarbrough and Mrs. John Pittman. Refreshments were Mrs. Dudley Rouse, Mrs. Adam Guthrie, Jr., and Mrs. D. L. Moseley.

Bright—Masses Engagement Announced

Mrs. J. V. McMahon and Mr. John Masses of Fayette announced the engagement and approaching marriage of their daughter, Joyce Maxine, to Richard Clinton Bright of Prescott.

Mrs. Bright attended Henderson State Teachers College in Arkadelphia.

The marriage will be solemnized October 30 in Camden Baptist Church.

Musical Coterie Members Attend District Meeting

Mrs. Dudley Gordon, Mrs. J. C. Stegert, Mrs. Charles Thomas and Mrs. J. V. McMahon of the Prescott Musical Coterie attended the Southwest District meeting of Music Clubs that convened in Ashdown Saturday.

Mrs. McMahon also attended the state board meeting.

Miss Simone Golden of Prescott, a guest, played a piano solo on the Pine Arts program sponsored by the Prescott Club.

Mrs. W. D. Golden accompanied her daughter to Ashdown.

Mrs. C. A. Smart of Little Rock has been the guest of her daughter, Mrs. Roy Statton and Mr. Statton.

Mrs. Ira B. Ward has returned to her home in Little Rock after a week's visit with her daughter, Mrs. Karl King, Jr., and family.

Mr. and Mrs. Loyd Cummings of Conway have returned to their home after a visit with relatives and friends.

Jim Ed Duke of Little Rock was the weekend guest of his mother, Mrs. Roy Duke.

Mrs. Meredith Bright and Miss Marjorie Bright, who are spending the winter in Marshall, Texas, spent the weekend at home.

Mrs. Mettie Robinson had as her guests Sunday, Mr. and Mrs. Elwood Robinson, Betty Lynn and Jennie of El Dorado.

Mr. and Mrs. Leeman Waters and children of Cullendale were the weekend guests of Mr. and Mrs. Bill Waters.

C. H. Tompkins, Jr., of Srevoport visited his parents, Mr. and Mrs. C. H. Tompkins, over the weekend.

Miss Loyce Stewart of Little Rock has been the guest of her mother, Mrs. Bob Stewart.

Mr. and Mrs. Horace Cottingham of Little Rock spent the week-end with their parents, Mr. and Mrs. Elmer Tippet and Mr. and Mrs. Elmer Tippet.

asked yesterday if it would mean more money to Arkansas, answered: "Only time will tell."

TANNERS DO WELL

WARREN, Conn., (AP) — The municipal election in this Little Rock field County town yesterday turned out all right for the Tanners.

At least it did for First Selectman Willis Tanner; Constable Irving Tanner, his brother; Tax Collector Herbert Tanner, their father; Tax Assessor Eldred Tanner, their cousin; and Town deposit Fund Agent Marjorie Tanner, another cousin.

and Mrs. T. E. Logan and Mrs. Julia Logan attended the open house honoring Mr. and Mrs. Ed. Logan at the Golden Wedding Anniversary in Arkadelphia Saturday in the home of Mr. and Mrs. Douglas Whitten Jr. Mrs. Whitten is the former Miss Annie Logan of Prescott.

Mr. and Mrs. C. A. Grant, Jr., and children of Magnolia over the weekend guests of relatives.

Mrs. W. A. Parker has had as her guest Mr. and Mrs. Warren Parker of El Dorado.

Mr. and Mrs. Ralph Scott of Little Rock were the Sunday guests of relatives. Mrs. Scott is the former Mrs. Ruth Hoot of Prescott.

The Little Rock Packing Company paid 26.50 for the 880 pound good steer of Charles Cobb of Ashdown and 22.50 for the 695 pound animal of Gerald Brooks of Winthrop.

In addition to purchasing the top steer of the auction at 35.50, the Kruger Company purchased four other steers, a 660 pound steer of Sonny Eiken at 25¢, a 990 pound steer of John Watkins at 29.75, and at 20.50, the 790 pound steer of John Watkins of Magnolia and the 645 pound animal of Gerald Brooks of Winthrop.

Clara Sutton of Cotton Livestock Commission selected and delivered the calves. Manager of the Hope Chamber of Commerce, Ray Lawrence, arranged for the event to be in attendance. Mrs. Ray Lawrence made the sale calculations.

Johnny Stewart of Kilgore, Texas, Auctioneer for Sutton Livestock Company, served as auctioneer.

BUY BIG

for as little as \$2415.00*

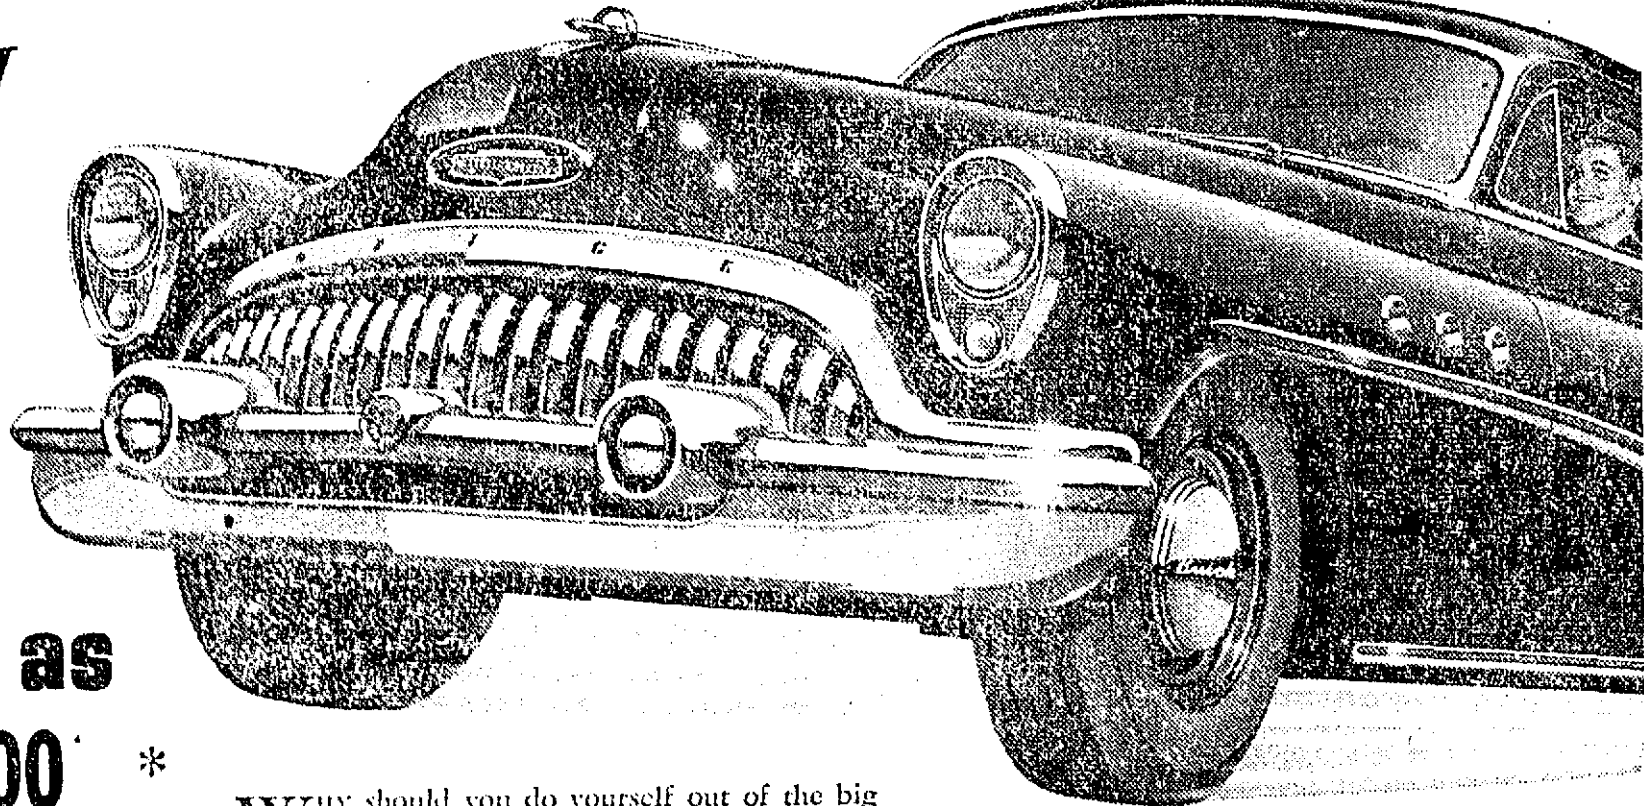

*Local delivered price of the New 1953 Buick SPECIAL

2-Door, 6-Passenger Sedan

Model 48D (illustrated)

MILTON BERLE stars for BUICK —in the BUICK-BERLE SHOW on TV

Tuesday evenings. Also, every Saturday, tune in The TV Football Game of the Week—a "GAL" Key Event

Why should you do yourself out of the big things in motoring life?

Why pass up the room and power and comfort and niceties of big-car travel—when you can buy a big, new Buick SPECIAL for just little more than the price of smaller cars?

We show our price here to prove our point—to prove that you can buy this Buick SPECIAL for just a few dollars more than you have to pay for one of the so-called "low-price three."

Figure what that means—

Just a few dollars more for a lot bigger hoodful of power—Fireball 8 power—the highest horsepower ever placed in a Buick SPECIAL.

Just a few dollars more for big and spacious 6-passenger roominess—and the solid, steady comfort of Buick's famed Million Dollar Ride.

Just a few dollars more for Buick styling, Buick handling, Buick luxury, Buick fun.

THE GREATEST
BUICK
IN 50 GREAT YEARS

But do you know what else those few extra dollars get you in this big, broad, beautiful Buick?

They get you a long list of standard equipment at no extra cost that most other cars at or near its price charge you for, as extras—which makes our quoted price even lower than it looks.

We have the facts and figures to prove our points. All we need is you, at the wheel.

Drop in on us this week and see for yourself that your new-car money really buys big—in Buick.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM
